

Infogressive, Inc. Gains Information Security Certifications

Justin Kallhoff of Infogressive, Inc. recently was awarded two prestigious information security accolades, completing both the GPCI and GCIH certifications. The GIAC Payment Card Industry certification is focused on the protection of credit card holder data. The GIAC Certified Incident Handler certification encompasses an understanding of common threats and vulnerabilities in computer systems, as well as effective handling of security incidents when they occur.

Kallhoff, a member of the elite information security team at Infogressive, Inc. now possesses six esteemed industry certifications. Kallhoff stated, "Staying current with the latest trends and standards is a challenge in the information security field. I enjoy being given the opportunities to learn from the best in the world and then being able to help our clients benefit from that knowledge."
